

## Information about the Service

**Description of the Service** - Naked DSL is a broadband internet service that works without the need for a traditional telephone service. By adding VoIP functionality we can provide great value telephony with free Local and National calls. Our Naked & VoIP services include the following monthly benefits:

- No Excess quota usage charges
- 10 email addresses
- ADSL2+ Speed
- Email protection
- Personal Web Space
- Awesome Local Customer Service

**Availability & System Requirements** – Coverage extends to approximately 400 exchanges across Australia. You can determine your availability using our service qualification tool at [www.esc.net.au/go/sq](http://www.esc.net.au/go/sq)

This service does not support the 'Priority Assistance' service feature for persons with life-threatening medical conditions; nor do we currently provide support for teletypewriter equipment or calls to some operator or premium rate services. VoIP uses new technology and as such certain services like monitoring services, fax/modem & alarms may not function.

**Minimum Term** – The minimum term for our Naked ADSL & Phone Bundle is 1, 12 or 24 months.

**Equipment needs** – You need an approved compatible broadband modem (with VoIP adapter) & adsl filter to use this service. In addition, you need a compatible telephone handset, if you do not already have one EscapeNet can sell you one at an additional cost.
